

2nd Global Congress on Microwave Energy Applications
July 23-27, 2012 • Hilton Long Beach • Long Beach, California, USA

Abstract Submission: January 15 - March 19, 2012

The Second Global Congress on Microwave Energy Applications (2GCMEA 2012), hosted in beautiful Long Beach, California, will feature plenary sessions, parallel topical sessions, poster sessions, an industrial exhibition and short courses. An exclusive dinner aboard the historic Queen Mary, the famous floating museum, is also included. Mark your calendars today and plan to attend 2GCMEA 2012, where the theme is “EM Solutions for Our Changing World.”

2GCMEA 2012 is organized by the global association MAJIC which collects the major societies involved in the high power microwave and RF heating technology:

Microwave Working Group,

AMPERE,

IMPI,

JEMEA,

Chinese Microwave Society,

and other microwave working groups from India, Russia and Australia.

Logistical and operational expertise is provided by MRS.

The conference topics will consist of the four categories described in the website:

<http://www.mrs.org/2gcmea-2012/>.

For more information, please contact AMPERE GENERAL SECRETARY: Juan Monzó-Cabrera (email: juan.monzo@upct.es).
