# CALL FOR ABSTRACTS **AMPERE 2019**

# VALENCIA

9-12 September, 2019

## **17th International Conference on Microwave and High Frequency Heating**

The Association for Microwave Power in Europe for Research and Education (AMPERE) is pleased to announce the 17th International Conference on Microwave and High Frequency Heating: AMPERE 2019, the largest event in Europe dedicated to scientific and industrial applications of microwave and radiofrequency power systems.

The AMPERE 2019 conference presents the status and trends in the multidisciplinary fields of microwave and radiofrequency heating, dielectric properties, material processing, high power systems and technologies.

The conference provides many opportunities to researchers and engineers from academia and industry to present their works, exchange innovative ideas, networking, discuss collaborations and to meet with international experts in a wide variety of specialties of microwave and high frequency technologies at both scientific and industrial scale.

## **Polytechnic City of Innovation (CPI), VALENCIA**

The conference will be held on 9-12 September 2019 in the The Polytechnic City of Innovation (CPI). The CPI is the Science Park of the Universitat Politècnica de València (UPV). The Science Park is conceived as a space, not only in physical terms, to connect university, business and society in order to streamline the generation of knowledge-intensive activities.

Located on the eastern coast of the Mediterranean Sea, Valencia is the third largest city in Spain with a population of around 1.000.000 inhabitants. The city of Valencia has many attractions making it one of the best locations for congresses, tourists and trade in Europe. Thanks to its privileged location in the Mediterranean and a dynamic economy and cultural life, Valencia is enjoying growing prominence amongst other large European cities.

## 17th International Conference on Microwave and High Frequency Heating

### AUTHOR GUIDELINES

Authors are invited to submit original and unpublished work, which is not under review in any other conference or journal.

All abstracts and papers will be peer reviewed by a Scientific Committee based on their originality, significance, methodological soundness, and clarity of exposition. All works will be classified in accordance with the scope of the congress and its thematic areas.

Submitted abstracts and papers must follow the template available in the conference webpage. Abstract length must be 1 page incorporating all text, references, figures and tables and must be uploaded in word format. Accepted abstracts will be invited to submit a full paper between 4 to 8 pages. Submissions require that at least one author register, attend the conference, and present the paper. Accepted papers must be presented in-person as 15-minute talk or in a poster session. The language for the submissions and presentations must be English, which is the only official language of the conference.

AMPERE 2019 is using the OCS platform of UPV Press to manage the submissions improving the scholarly and public quality of conference publishing. This platform provides authors a homepage where register their submissions and make appropriate changes.

Accepted abstracts will appear in the conference Book of Abstracts printed for the conference. Accepted papers will appear in the conference proceedings (with ISBN), published by UPV Press, and will be provided with a DOI number and submitted to be indexed in major international bibliographic databases.

### AWARDS

The Scientific Committee will select the winners for the Best Paper and Best Student Paper awards of the conference. Outstanding contributions in the field of Industrial Microwave or RF heating will also be awarded with the AMPERE Medal and AMPERE Fellowship.

### TOPICS

- Energy Production by Microwaves (including renewable energy and chemicals)
- Microwave and High Frequency Material Interaction
- Design of Microwave Applicators and Components
- Dielectric and Magnetic Material Properties and Measurements
- Microwave Industrial Equipment and Scale-up
- Food Processing
- Medical and Biological Applications
- Radiation Safety and Standards
- Trends in Microwave Processing
- Microwave CVD (plasma processing induced by microwaves & diamonds)
- EM Modelling and Numerical Techniques
- Solid State Microwave Technology
- Microwave and High Frequency Sources and Power Supply
- Microwave Chemistry
- Microwave Packaging

### IMPORTANT DATES

21 September 2018	Call for Abstracts
10 March 2019	Deadline Abstract Submission
3 May 2019	Notification of acceptance
7 June 2019	Close early bird payment
14 June 2019	Deadline full paper
28 June 2019	Close payment for authors
9 September 2019	Workshops and Short Courses
10-12 September 2019	Conference

### CONFERENCE CHAIRS

Chair: Prof. José M. Catalá-Civera,  
Universitat Politècnica de València, Spain  
chair@ampere2019.com

Co-Chair: Prof. Felipe L. Peñaranda-Foix,  
Universitat Politècnica de València, Spain  
cochair@ampere2019.com

### STEERING COMMITTEE

A.C. Metaxas, AC Metaxas and Associates, UK  
 Andrzej Stankiewicz, TU Delft, The Netherlands  
 Beatriz García Baños, UPV, Spain  
 Birgitta Raaholt, RISE, Sweden  
 Cristina Leonelli, UNIMORE, Italy  
 Darek Bogdal, Cracow University of Technology, Poland  
 Eli Jerby, Tel Aviv University, Israel  
 Elías de los Reyes Davó, UPV, Spain  
 Gabriel Llorens Vallés, UPV, Spain  
 Georgios Dimitrakis, The University of Nottingham, UK  
 Georgios Stefanidis, KU Leuven, Belgium  
 Guido Link, KIT, Germany  
 Isidora Navarro Milla, UPV, Spain  
 Jean Paul Bernard, SAIREM, France  
 José Daniel Gutiérrez Cano, UPV, Spain  
 Junwu Tao, University of Toulouse, France  
 Kama Huang, Sichuan University, China  
 Koen Van Reusel, KU Leuven, Belgium  
 Marco Garuti, MKS Instruments, Italy  
 Marilena Radoiu, Microwave Technologies Consulting, France  
 Paolo Veronesi, UNIMORE, Italy  
 Pedro Plaza González, UPV, Spain  
 Vaidhy Vaidhyanathan, Loughborough University, UK
