

LETTER to evidence novelties

Dear Colleague,

The website of the **20th International Conference on Microwave and High Frequency Applications- AMPERE 2025** is now online! You can already find a lot of information and much more will be added in the coming weeks.

Please, mark the dates in your calendar: **Bari, Italy, 15-18 September 2025!**

With this letter, we would like to draw your attention to some of the novelties that characterise this edition.

1- The Conference Venue

The conference will be held in a 4-star hotel, **Villa Romanazzi Carducci**, at a convenient price in the city of Bari, Italy. Villa Romanazzi Carducci was built in 1885 as an aristocratic residence, and as such it is immersed in a lush park with a wide variety of aromatic trees and elegant garden furniture, which you will appreciate while walking along its many natural paths. The modern swimming pool for the Hotel's guests completes the comfortable stay in late Summer. The hotel offers accommodation in single and double rooms. Suites are also available. Please use the website for booking

(https://all.accor.com/hotel/1971/index.it.shtml?utm_campaign=seo+maps&utm_medium=seo+maps&utm_source=google+Maps) and contact the hotel by email for information (booking@villaromanazzi.com).

If you do not wish to stay at the conference hotel, please note that there are a number of hotels around the conference centre as well as some high standard B&B at affordable prices! Please note that the conference cannot guarantee the availability or standards of any of these establishments and all bookings are made at the delegate's own risk.

Scam Warning - The Conference does not work with any third party accommodation agencies to provide accommodation for the Conference. If you are contacted by an agency making this claim, please be warned that it is likely to be a scam. For your own safety, please contact the hotels directly.

2- Abstract submission procedure

The submission of the Abstract will be done on line (<https://ampere2025.org/abstracts/>). An abstract for the AMPERE 2025 conference is subject to an Editorial Processing Charge (EPC). The organisers have decided to **waive the EPC**, but the author must "buy" the abstract through the Shop Area. To access to the Shop Area (<https://ampere.absmanager.com/account/>), the author should have an account and be logged in (<https://ampere.absmanager.com/registration/>).

Abstracts will be published in Scientific Research Abstracts (ISSN 2464-9147).

Please note that each abstract will be uploaded by the presenter in a new website geometry that has been implemented to facilitate the elaboration of:

- The book of abstracts;
- The conference programme;
- The list of participants.

Abstract submission will be closed **on 7 March 2025**.

3- Registration fees and payment

Early Bird Registration Fees have been offered to those who may choose to pay before 6 May 2025. Payment will be made online via a special access. To access to the Shop Area (<https://ampere.absmanager.com/account/>), the author should have an account and be logged in (<https://ampere.absmanager.com/registration/>).

As a consequence of point 2, all the presenters of Oral or Poster contributions should pay their own Registration Fee before **11 July 2025**. At this date the FINAL PROGRAMME and the BOOK OF ABSTRACTS will be prepared.

If a presenter does not respect the deadline of 11 July, his/her contribution will be deleted from the FINAL PROGRAMME and the BOOK OF ABSTRACTS.

4- Publication options

The highest quality submissions will be invited to provide a full article, to be published in the new journal from AMPERE, the 'European Journal of Microwave Energy– EJME' (e-ISSN: 2753-3921) (<https://ejme.cardiffuniversitypress.org/>).

In addition to this option, we also offer the submission an extended abstract (max 6 pages), which will be published in in ProScience (ISSN: 2283-5954), an Open Access Conference Proceedings series. A registered author may submit, free of charge, a maximum of 1 extended abstract. For additional extended abstracts, a publication fee (Euro 250.00) has to be paid for each contribution.

Extended abstract submission will be closed on **31 October 2025**.

Please find additional information on the Publications page (<https://ampere2025.org/publications/>).

It is our hope that this list of new procedures will be of interest to you and of assistance to your submission. For further information, please click here (<https://ampere2025.org/>).

Stay tuned!

Cristina Leonelli

Conference Secretary (ampere2025@ampereurope.org)
